IT graduate with a strong foundation in cloud computing and application development, and hands-on experience gained through an AWS Cloud Support Associate internship. Skilled in troubleshooting cloud environments, understanding customer needs, and contributing to practical technical solutions. Highly motivated to grow in Tech Solutions while delivering customer-focused outcomes.

EDUCATION

Institution: The IIE's Varsity College |Bachelor's in computer science in application Development | 2022 – 2024 | Sandton, Johannesburg

- Relevant Coursework: Advanced C# Programming, Introduction to open-source Coding Kotlin, Introduction to Research, IT Project Management

Institution: CTU Training Solutions | 2021 |Auckland Park, Johannesburg

- Relevant Coursework: Robotic Development, Python Programming, Computer Architecture, Cloud Fundamentals
- Network Architecture, Programmer Ethics Principles of Program Design

EXPERIENCE

**Cloud Support Associate Intern |Amazon Web Services (AWS)|
Western Cape , South Africa February 2025 - August 2025**

- Participated in simulated customer case labs, diagnosing and resolving complex AWS service issues.
- Troubleshoot a wide range of AWS services including EC2, RDS, VPC, IAM.
- Developed a systematic approach to isolating and resolving cloud infrastructure problems.
- Gained practical experience in identifying misconfigurations, performance bottlenecks, and security vulnerabilities.

**Google ImageFX Volunteer Tester | Google | Location : Remote
2024 – Current**

- Participated in testing and evaluating Google's generative AI creation tools, focusing on the latest advancements in ImageFX powered by Imagen 3.
- Provided detailed feedback on usability, performance, and potential improvements to enhance the user experience and functionality of the tool.
- Collaborated with Google's development team to identify and resolve issues, contributing to the optimization of AI tools.
- Adhered to strict confidentiality agreements while contributing to the advancement of cutting-edge AI technology

Part Time tutor in information technology currently tutoring students and helping them understand the field of information technology along with practical programming knowledge like java and SQL database management.

Certifications

- AWS Certified Solutions Architect - Associate
- AWS Certified AI Practitioner
- OCI AI Foundation Associate certification
- Introduction to Programming Using Python 98-381
- Introduction to Programming Using JavaScript 98-382
- Introduction to Programming Using HTML and CSS 98-383
- MCIT SETA CERTIFICATE : Systems Development
- QCTO FET Certificate: Systems Development

PROJECTS

- Repo of my C# projects and different functionalities: <https://github.com/Nqobza25/Nqobile.git>
- Focus Time is a lightweight, distraction-free productivity app built around the Pomodoro Technique. It helps you break work into focused intervals with scheduled breaks : <https://github.com/nqobile-x/Focus-Time.git>
- This project is a browser-based simulation of the macOS desktop environment. It recreates the familiar look and feel of macOS — including windows, dock, and menus:<https://github.com/nqobile-x/macOS-Web-Desktop-Simulation.git>
- OutbreakOracle is an AI-powered epidemiological intelligence system designed to detect, analyze, and respond to emerging disease threats in real time: <https://github.com/nqobile-x/OutbreakOracle.git>
- Government Municipal Service app prototype to help users with certain issues they face and report a problem: [GovernmentMunicipalServiceApp \(youtube.com\)](https://www.youtube.com/watch?v=UjKQAB2iiqQ)
- Greetings This is a video presentation on my prototype app based on coffee where a user can order coffee and have their coffee delivered to them and enjoy their coffee at home or at work: <https://youtu.be/qlKQAB2iiqQ>
- This project is Helping hands where users can donate to organizations in need: <https://youtu.be/cvifoRxQIRY>
- The video is a final project demonstration by Nqobile Sibiyi showcasing the My Ride to Rent system. It presents a web application designed to manage car rentals, inspectors, drivers, and returns. The demo highlights the login system with validation : <https://youtu.be/FyGzSRJ4-HY>

SKILLS

- Programming Languages: Java, C#, Python, SQL
- Development Tools: Microsoft Azure, Android Studio
- Web Development: HTML, CSS, JavaScript
- Operating Systems: Windows , Linux
- Database Management: MySQL, MongoDB
- MS Office
- Development Tools: Git, GitHub, Visual studio 2022
- Developed skills in AI, machine learning, and image processing technologies through hands-on testing and analysis
